However, Aggregator may schedule any quantum beyond 55% and up to the Contracted Capacity in any time block subject to the Declared Capacity by the Supplier.

10.1.4 The daily schedule for the next day shall be finalized by the Aggregator on the preceding day in accordance to the Grid Code regulations. 10.2.1 In case Aggregator does not schedule the power, then the Supplier shall have the option to sell the power not scheduled by Aggregator to the Power Exchange/ any third party. However, such power scheduled to any third party/Power Exchange within limit of 55% of the Contracted Capacity on monthly basis shall be considered to be scheduled under this Agreement.

10.2.2. In case Aggregator schedules power less than 55% of the Contacted Capacity on monthly basis, then the Aggregator shall pay compensation to the Supplier for such shortfall in energy at the rate of the difference between the Tariff payable by the Aggregator and the daily Average (RTC) MCP Prices at the Power Exchange (IEX) for such date. However, in case daily Average (RTC) MCP Prices at the Power Exchange are more than the Tariff payable, then the Supplier shall pay half the difference between daily Average (RTC) MCP Price at the Power Exchange

⁴ The words enclosed in square parenthesis in clause 10.1, the entire Clause 10.4 and the definition of Peak Hours in Article 26 may be omitted if the procurement of electricity is not confined to Peak Hours.

(IEX) for such date and Tariff. Further, the Aggregator shall bear the applicable transmission charges for the entire approved MTOA quantum for such period.

- 10.2.3. In case of deviation in declared Availability from the Supplier side is more than 15% of the Contracted Capacity for which open access has been approved, then the Supplier shall pay to Aggregator a compensation on monthly basis at the rate, which shall be the difference between the Tariff payable by the Aggregator and the daily Average (RTC) MCP Prices at the Power Exchange (IEX) for such date, for the quantum of shortfall in excess of permitted deviation of 15%. Further, the Supplier shall also pay the applicable transmission charges to the extent not supplied to the Aggregator, for quantum of shortfall in excess of permitted deviation of 15% of the approved MTOA.
- 10.2.4. Above compensation shall be calculated on daily basis and the invoice shall be raised by the Aggregator or the Supplier as the case may be on monthly basis and payment shall be made within 30 days from the date of receipt of the invoice. For any delays in payment, surcharge shall be payable for the period of delay, at the rate of 15% per annum.
- 10.2.5. However, for the purpose of clarification it is mentioned that in case open access granted by Nodal RLDC is less than the Contracted Capacity, then the initially approved open access quantum by RLDC shall be considered as the “Contracted Capacity” and compensation shall be applicable on initially approved open access quantum.

10.3 Substitute Supply

In the event the Availability of the Power Station is reduced on account of scheduled maintenance, unscheduled maintenance or Force Majeure, the Supplier may, with prior consent of the Aggregator, which consent the Aggregator may deny in its sole discretion or convey acceptance with such conditions as it may deem fit, supply electricity from any alternative source, and such supply shall, for payment of Tariff, be deemed to be supply under and in accordance with the provisions of this Agreement. For the avoidance of doubt, the Parties agree that in the event the Aggregator rejects any supply of electricity offered hereunder from an alternative source, the Supplier shall be deemed to be in compliance with this Agreement for the purpose of determination of Availability and payment of Tariff.

It is hereby clarified that the Aggregator shall make payment of the Tariff to the Supplier for supply of electricity from any alternate source in accordance with this Article irrespective of the actual cost of supply of electricity from such alternative source.

Part IV
Financial Covenants

ARTICLE 11

The Aggregator shall pay to the Supplier lumpsum tariff of Rs. ***/ kWh for supply of electricity, as the case may be, in accordance with the provisions of this Agreement (the “**Tariff**”).

It is hereby clarified that the Tariff shall be fixed for the entire Contract Period and there shall be no escalation in the said Tariff.

11.2 Declaration of Availability

11.2.1 Unless otherwise notified by the Supplier, the declared Availability shall, be deemed to be 100% (one hundred per cent) thereof at all times.

11.2.2 In the event that any shortfall in supply of electricity to the Aggregator occurs on account of any deficiency in transmission between the Power Station and Delivery Point, the Availability shall be deemed to be reduced to the extent of reduction in transmission of electricity, and the reduction referred to hereinabove shall be deemed as Non-Availability on account of deficiency in transmission. For the avoidance of doubt and by way of illustration, the Parties agree that if such deficiency in transmission is equal to 20% (twenty per cent) of the Contracted Capacity, the Availability shall be deemed to be 80% (eighty per cent) and the Non-Availability hereunder shall be notified by the Supplier to the Aggregator forthwith.

In such an event, the Availability for the relevant month shall, for the purposes of payment of Tariff, be deemed to be reduced by the same proportion that Availability bears to Mis-declaration, as if the Mis-declaration had occurred for a period of one month. For the avoidance of doubt, the Parties agree that deductions on account of Mis-declaration shall be made from the subsequent payments due to the Supplier under this Agreement.

11.2.5 Notwithstanding the provisions of Clause 11.2.4, any reduction in Availability arising out of de-commissioning due to Emergency or a Force Majeure Event shall not be deemed to be Mis-declaration if the Supplier shall have notified the Aggregator in accordance with the provisions of Clauses 17.5.

Discount in tariff shall be at the rate of 1% of the tariff for every 5% incremental increase or part thereof in off-take beyond 55% of the Contracted Capacity.

For the avoidance of doubt and by way of illustration, in case Aggregator off-takes 63% of the Contracted Capacity in a month and assuming Tariff payable by the Procurer for the accounting year is Rs. 2.50/kWh, then the Tariff payable by the Procurer for the energy supplied up to 55% of the Contracted Capacity shall be at the rate of Rs. 2.50/kWh, over 55% and up to 60% shall be Rs. 2.475/kWh and for the energy supplied over 60% and up to 63% shall be Rs. 2.475. Within 7 (seven) days of receiving such notice, the Supplier shall present any information or evidence as may reasonably be required for determining that such Disputed Amounts are payable. The Aggregator may, if necessary, meet a representative of the Supplier for resolving the dispute and in the event that the dispute is not resolved amicably, the Dispute Resolution Procedure shall apply. For the avoidance of doubt, even if a dispute is resolved amicably, any amount paid after the Payment Due Date shall be deemed as delayed payment for the purposes of payment of interest thereon. For the avoidance of doubt, the Aggregator shall be entitled to raise a dispute regarding any Disputed Amounts, whether due or already paid in accordance with this Agreement, at any time.

11.6.2 If any amount is payable by either Party to the other Party upon determination of a dispute regarding any Disputed Amount under the Dispute Resolution Procedure, such amount shall be deemed to be payable on the date when it first became due under this Agreement, and interest for the period of delay shall be due and payable at the rate specified in Clause 25.4.

For the avoidance of doubt, the Parties hereto agree that the adjudication hereunder shall not be final and binding until an appeal, if any, against such adjudication has been decided by the appellate tribunal, or no such appeal has been preferred within the time specified in the Applicable Law.
