Auction Approach ...

Bidder B2

Bidder B3

Bidder B1

Bidder B4

Bidder B5

Bidder B6

Bidder B7

Auction is designed in a way such that Bidders can obtain coal supplies from their preferred Source(s) by bidding for the highest discount using the right to choose.

Auction Approach

Two stage Process

Stage 1 - IPO

 Bidders have the opportunity to lock in their preferred Source(s) at a given price (discount on tariff) as deemed appropriate

Stage 2 – SPO

- Bidders have the opportunity to pick up quantity from one or more Source(s) at a given price (discount on tariff)
- Auction will start at a Starting Discount and will proceed in reverse
- Bidders will get to see the source wise balance quantity available at the beginning of each round
- Bidders will get to see their provisional allocation on a real time basis (if they have bid in that round)

Therefore, it is expected that

- (i) Bidders will have the opportunity to select their most preferred Sources
- (ii) Best possible value will be obtained for each Source (in terms of levellised discount)

IPO Stage of Auction

- The Auction shall be conducted in the sequence of IPO Stage and SPO Stage.
- Each Eligible Bidder shall submit an IPO, for at least 1 (one) Source, which shall be the Levellised Discount that the Eligible Bidder is willing to offer for a particular Source.
- Eligible Bidder can submit IPO(s) for more than 1 (one) and up to all the Sources and if the Eligible Bidder so chooses, it will have to quote a different IPO Discount for each Source. [Min. 7 paise/kWh and Max. 40 paise/kWh]
- IPO to remain encrypted and shall be opened before SPO stage.
- Submission of IPO for a particular source does not preclude the Bidders from bidding in other sources or the same source at a higher SPO discount during E-auction.
- For example

| Bidder | IPO Discount (paise/kWh) | | | | | | | | |
|--------|--------------------------|----------|----------|----------|----------|--|--|--|--|

| B7 | 2 | 10 | - | - | - | - | - | - |
| Total | 45.85 | 455.523 | | | | | | 38.85 |

- Bidder B2 & B4 submit a lower Bid Security & Process Fee than CEA Approved Quantity and hence their Maximum Eligible Quantity is capped as per Bid Security & Process Fee.
- Bidder B3 submits a higher Bid Security & Process Fee than CEA Approved Quantity and its Maximum Eligible Quantity is capped at CEA Approved Quantity.
- Bidder B7 submits Bid Security & Process Fee but does not submit an IPO and hence becomes ineligible to participate in the auction. Maximum Eligible Quantity of such a bidder is considered 0.
