- (d) The SPD may modify the Project configuration in terms of blocks, subsequent to issuance of LOA until the signing of PPA, subject to the condition as per (c) above. Neither PFCCL nor NTPC shall be responsible for any delay in reconfiguration of the Project, which might lead to delay in signing of PPA and in-turn, commissioning of the Project.

4. PROJECT LOCATION

The Projects can be located anywhere in India.

5. PROJECT SCOPE & TECHNOLOGY SELECTION

Under this RfS, the SPD shall set up Solar PV Project including the dedicated transmission network up to the Interconnection/ Delivery Point, at its own cost and in accordance to the provisions of this RfS document. All approvals, permits and clearances required for setting up of the Project and/ or dedicated transmission network up to interconnection/ delivery point (including connectivity) including those required from State Government and local bodies shall be in the scope of the SPD.

The Projects to be selected under this scheme provide for deployment of PV Technology. However, the selection of Projects would be technology agnostic within PV technology and crystalline silicon or thin film or CPV, with or without Trackers can be installed.

The SPD shall be required to follow the applicable rules regarding project registration with the State Nodal Agency (SNA) in line with the provisions of the applicable policies/regulations of the State where the Project(s) are being located. It shall be the responsibility of the SPD to remain updated about the applicable charges payable to the SNA under the respective State Solar Policy.

6. MAXIMUM ELIGIBILITY FOR PROJECT CAPACITY ALLOCATION FOR A BIDDER

Following conditions shall be applicable to the Bidders for submission of bids against this RfS:

- (a) A Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company may submit a single bid for any quantity between (and including) **300 MW to 1250 MW**, in the prescribed formats.

- (b) For each Project, the minimum Project capacity shall be 300 MW. The total capacity to be allocated to a Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company shall be up to 1250 MW.
- (c) The evaluation of bids shall be carried out as described in Section-V of RfS. The methodology for Allocation of Projects is elaborated in Section-V of RfS.
- (d) In case the Bidder wishes to set up more than One Project, then the Projects would need to be physically identifiable for the Project Capacity with separate boundary wall, separate injection points and metering arrangement.
- (e) Multiple bids from same company including its Parent/ Ultimate Parent/Affiliates/Group Companies shall make all the bids submitted by the group invalid.

7. CONNECTIVITY WITH THE GRID

- 7.1 The Project should be designed for interconnection with the ISTS in accordance with the prevailing CERC regulations in this regard. For interconnection with the grid and metering, the SPD shall abide by the applicable Grid Code, Grid Connectivity Standards, regulations on Communication System for transmission of electricity and other regulations (as amended from time to time) issued by Appropriate Commissions, Central Electricity Authority (CEA) and Report of the Working Group in respect of Data Submission Procedure And Verification of Compliance to CEA Regulations on Technical Standards for Connectivity to the Grid by RE Generators dated July 2022. Minimum voltage for interconnection at the ISTS shall be 220 kV.
- 7.2 The Bidders are free to choose the ISTS substations for Interconnection of the Project to the grid on a pan-India basis from available margin in existing substations and in line with Clause 7.10 below.
- 7.3 As intimated above, the responsibility of getting the ISTS connectivity shall entirely be of the SPD and shall be at the cost of the SPD, in line with applicable regulations. Such availability of transmission system being dynamic in nature, the Bidder has to ensure actual availability of power injection/evacuation capacity at an ISTS substation. The transmission of power up to the point of interconnection where metering is done for energy accounting, shall be the responsibility of the SPD at his own cost. In case an SPD is required to use InSTS to bring solar power at ISTS point, he may do so as per rule and regulations prescribed by the respective SERC in this regard. The maintenance of Transmission system up to the interconnection point shall be responsibility of the SPD, to be undertaken entirely at its cost and expense.
- 7.4 The arrangement of connectivity shall be made by the SPD through a dedicated transmission line. The entire cost of transmission including cost of construction of line, wheeling charges, SLDC/Scheduling charges, SOC, MOC, maintenance, losses etc. and any other charges from the project up to and including at the interconnection point will be borne by the SPD. The maintenance of Transmission system up to the Inter- connection Point shall be the responsibility

of the SPD, to be undertaken entirely at its cost and expense.

- 7.5 The transmission connectivity to the SPD may be provided by the CTU/STU, as the case may be, prior to commissioning of the project on the request of the SPD, to facilitate testing and allow flow of infirm power generated into the grid to avoid wastage of power.
- 7.6 Metering arrangement of each project shall have to be adhered to in line with relevant clause of the PPA. Two or more Projects can be connected to a common pooling substation from which the pooled power can be transferred to the CTU substation through a common transmission line subject to the following conditions;
- a) Acceptance of such an arrangement by CTU/ RLDC.
 - b) Energy injected by each Project will be recorded and signed jointly by all Project owners and copies of the same will be submitted to NTPC/CTU as required.
 - c) The energy accounts are divided and clearly demarcated for the power generated at solar project and are issued by the STU/SLDC/RLDC/RLDC/ RPC concerned.
 - d) In case of Pooling substation, losses in the transmission line between the Pooling substation and the ISTS substation, shall be apportioned among the SPDs who share such a Pooling arrangement, based on their monthly generation.
- 7.7 The SPD shall comply with CERC/SERC regulations on Forecasting, Scheduling and Deviation Settlement, as applicable and are responsible for all liabilities related to Connectivity. The scheduling of the power from the project, in line with extant regulations, shall be the responsibility of the SPD and any financial implication on account thereof shall be borne by the SPD. In order to remove potential discrepancies and ambiguities, the SPDs are hereby instructed that, as part of scheduling of power from the Project, they will be required to punch-in their respective schedules and subsequent revisions, by themselves, at the interfaces of all the RLDCs concerned for the corridor of power flow, including the RLDC of the NTPC/Discoms, as per the regulations in force, under intimation to NTPC. NTPC may facilitate in identification of any discrepancy and assist the SPD for its early rectification without any liability on NTPC. The SPD shall be solely responsible for discrepancy identification and its rectification to avoid any rejection/less payment of invoices.
- 7.8 Reactive power charges and charges against power drawn from grid as per CERC/SERC regulations, shall be payable by SPD, as per provisions of PPA.
- 7.9 The responsibility for all transmission charges and losses and any other charges as applicable under the respective regulations beyond Delivery Point and up to the drawl point shall be as per extant regulations.
- 7.10 The SPD shall be required to follow the detailed Procedure as issued by CERC/ CTU under the Central Electricity Regulatory Commission (Connectivity to the inter-State Transmission System) Regulations, 2022, as well as other regulations issued by CERC/ CEA and as amended from time to time. It is further clarified that the Entities as indicated in the Detailed Procedure issued under the above regulation, will be responsible for their respective obligation as notified in the Detailed Procedure, irrespective of the provisions of the RfS and PPA. The entire cost of

transmission including cost of construction of line, wheeling charges, SLDC/Scheduling charges, SOC, MOC, maintenance, losses etc. and any other charges from the project up to and including at the interconnection point will borne by the SPD. The Bidders are free to choose the ISTS substations for Interconnection of the Project to the Grid on a pan-India basis. While doing so, the Bidders shall apply due diligence while choosing the proposed substation, and may choose their substations from any one of the following options:

- (a) Existing substations having available margin as indicated by the respective substation owner.
- (b) Existing substations where augmentation is under process or plans for augmentation have been announced.
- (c) Substations located in the Northern, Western and Southern regions under the updated plan made available by the Minutes of meeting for Northern, Western and Southern Region Standing Committees and as displayed by the CTU on its website, <https://webapps.powergrid.in/ctu/u/Default.aspx>, subject to availability of requisite margin for grant of connectivity.

7.11 Bids indicating substations outside the above three choices will be liable for rejection. The SPDs shall be required to apply for connectivity at the identified substations within 30 Days of issuance of LOAs, and shall furnish copies of the application, complete in all respect, to NTPC at the earliest. SPD shall also have to provide the copy of in-principal grant of connectivity, final grant of connectivity, connectivity agreement within 15 Days of issuance of letter by CTU / signing of connectivity agreement, as the case may be, to NTPC.

7.12 The SPD has to follow the timelines mentioned in the Central Electricity Regulatory Commission (Connectivity and General Network Access to the inter-State Transmission System) Regulations, 2022 (“GNA”) with respect to Connectivity. In case, connectivity has been revoked due to non-compliance of SPD, then the same may be considered as SPD’s Event of Default and shall be dealt as per the provision of PPA.

7.13 In case the SPD fails to obtain the connectivity at a Substation identified by the Bidder, the same shall be immediately notified by the SPD to NTPC.

8. ENERGY SUPPLY BY SOLAR POWER DEVELOPER

8.1. Criteria for Energy Supply

The Bidders will declare the annual CUF of the Projects at the time of submission of response to RfS, and the SPDs will be allowed to revise the same once within first year after COD. Thereafter, the CUF for the Project shall remain unchanged for the entire term of the PPA. The declared annual CUF shall in no case be less than 22%. It shall be the responsibility of the SPD, entirely at its cost and expense to install such number of Solar panels and associated equipment

Selection of Solar Power Developers for Setting up of 1250 MW ISTS-Connected Solar PV Power Projects in India under Tariff-based Competitive Bidding

(including arrangement of extra land for such installation) as may be necessary to achieve the required CUF, and for this purpose SPD shall make its own study and investigation of the Global Horizontal Irradiance (GHI) and other factors prevalent in the area which have implication on the quantum of generation. SPD shall maintain generation so as to achieve annual CUF within + 10% and -15% of the declared value till the end of 10 years from COD, subject to the annual CUF remaining minimum of 19%, and within +10% and -20% of the declared value of the annual CUF thereafter till the end of the PPA duration of 25 years. The lower limit will, however, be relaxable by NTPC to the extent of non- availability of grid for evacuation which is beyond the control of the SPD. The annual CUF will be calculated every year from 1st April of the year to 31st March next year.

8.2. Shortfall in Generation

If for any Contract Year, it is found that the SPD has not been able to supply minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the SPD, on account of reasons primarily attributable to the SPD, such shortfall shall be dealt as per the applicable provisions of the PPA.

8.3. Excess Generation

Any excess generation over and above the declared annual CUF may be purchased by NTPC at its discretion (without any obligation to do so) at a fixed tariff of 75% (seventy-five percent) of the PPA tariff. However, the SPD shall inform at least 60 Days in advance of such excess generation to NTPC, to enable NTPC take necessary actions for sale of this excess generated energy. NTPC shall be required to intimate its approval/refusal to the SPD, for buying such excess generation not later than 30 Days of receiving the above offer from the SPD. In the event the offer of the SPD is not accepted by NTPC within the said period of 30 Days, such right shall cease to exist and the SPD, at its sole discretion, may sell such excess power to any third party.

While the SPD would be free to install DC solar field as per his design of required output, including his requirement of auxiliary consumption, SPD will not be allowed to sell any excess power to any other entity other than NTPC (unless refused by NTPC).

In case at any point of time, the peak of capacity reached is higher than the rated capacity and causes disturbance in the system at the point where power is injected, the SPD will have to forego the excess generation and reduce the output to the rated capacity to ensure compliance with grid requirement.

8.4. Generation Compensation for Offtake Constraints:

a. Offtake Constraints due to Transmission Infrastructure/ Grid Unavailability:

After the Scheduled Commissioning Date, if the SPD is ready but the necessary power evacuation/ transmission infrastructure is not ready, for reasons not attributable to the SPD, then

SCD for such projects may be revised as the date as on 30th day subsequent to the readiness of the Delivery Point and power evacuation infrastructure. Decision on requisite extension on account of the above factor shall be taken by NTPC on case-to-case basis after examining the issue.

Or

The SPD may seek compensation as per extant Central Electricity Regulatory Commission (CERC) regulations.

However, it is clarified that if the Project is ready for commissioning prior to the Scheduled Commissioning Date, but the offtake is constrained because of inadequate/incomplete power evacuation infrastructure, no compensation shall be permissible.

b. Offtake Constraints due to Backdown:

- i) The SPD and the NTPC shall follow the forecasting and scheduling process as per the regulations in this regard by the Appropriate Commission. No SPD qualified as must-run power plant defined as per Electricity (Promotion of Generation of Electricity from Must-Run Power Plant) Rules 2021, duly commissioned, shall be directed to back down by the NTPC as per provisions of these rules. In case such eventuality of back down arises, except for the cases where the back down is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions, the SPD shall be eligible for a Minimum Generation Compensation, from the NTPC, in the manner detailed below.

Duration of Backdown	Provision for Generation Compensation
Hours of Backdown during a monthly billing cycle.	<i>Minimum Generation Compensation = 100% of [(Average Generation per hour during the month) * (number of backdown hours during the month)] * PPA Tariff</i> Where, Average Generation per hour during the month (kWh) = Total generation in the month (kWh) ÷ Total hours of generation in the month.

- ii) The Generation Compensation is to be paid as part of the energy bill for the successive month after receipt of Regional Energy Accounts (REA).
- iii) No back-down/ curtailment to be ordered without giving formal/ written instructions for the same.

9. CLEARANCES REQUIRED FROM THE STATE GOVERNMENT AND OTHER LOCAL BODIES

The Solar Power Developers are required to obtain all necessary clearances and permits as required for setting up the Solar Power Projects, including but not limited to the following:

Selection of Solar Power Developers for Setting up of 1250 MW ISTS-Connected Solar PV Power Projects in India under Tariff-based Competitive Bidding

- i) Land acquisition: Submission of title documents/ Lease Agreement to establish ownership/ possession/right to use 100% (hundred per cent) of the required land in the name of the SPD for a period not less than the complete term of the PPA, on or before the Scheduled Commissioning Date (SCD). Wherever leasing of private land is involved, the lease should allow transfer of land lease rights to the lenders or NTPC, in case of default of the SPD.”
- ii) No Objection Certificate (NoC)/ Environmental Clearance (if applicable) for the Project.
- iii) Forest Clearance (if applicable) for the land for the Project.
- iv) Approval for Water from the concerned authority (if applicable) required for the Project.
- v) A letter from State Transmission Utility (STU)/ Central Transmission Utility (CTU) [or Solar Power Park Developer, in case of selected site being a solar park] confirming technical feasibility of connectivity of the plant to STU/ CTU substation. If the Project site is located in the same State as the NTPC, State Govt. shall endeavor to provide necessary support to facilitate the connectivity of the plant to STU/CTU substation.
- vi) Any other clearances as may be legally required, in order to establish and operate the Project.

The above clearances, as applicable for the Project, will be required to be submitted to NTPC prior to commissioning of the Project. In case of any of the clearances as indicated above being not applicable for the said Project, the SPD shall submit an undertaking in this regard, and it shall be deemed that the SPD has obtained all the necessary clearances for establishing and operating the Project. Any consequences contrary to the above shall be the responsibility of the SPD.

The SPD shall be required to follow the applicable rules regarding project registration with the State Nodal Agency (SNA) in line with the provisions of the applicable policies/regulations of the State where the Projects are being located. It shall be the responsibility of the SPD to remain updated about the applicable charges payable to the SNA under the respective State Solar Policy.

Note: The SPD shall apply for all the necessary approvals, permits and clearances not more than 90 days from the Effective Date of PPA, which shall be complete in all respects, incorporating the clarifications/changes as required by the concerned authorities. The above timeline shall be adhered to, in order to examine cases where the SPD faces delay in grant of the necessary approvals and permits, for a period substantially greater than the standard period of grant of approval by the respective organizations.

Selection of Solar Power Developers for Setting up of 1250 MW ISTS-Connected Solar PV Power Projects in India under Tariff-based Competitive Bidding

or caused due to a Force Majeure as per PPA. An extension can however be considered, on the sole request of SPD, on advance payment of extension charges of INR 1,000/- per day per MW. Subsequent to the completion of deadline for achieving Financial Closure, NTPC shall issue notices to the SPDs who are not meeting the requirements of Financial Closure as per the RfS deadlines. The notice shall provide a period of 7 working days to the respective SPDs to either furnish the necessary documents or make the above-mentioned payment of Rs.1,000 / MW/day. In case of non-submission of either-the requisite documents or the necessary amount upon expiry of the above-mentioned notice period of 7 working days-NTPC shall encash the PBG of the corresponding SPDs and terminate the PPA for the corresponding Project. The amount of Rs. 1,000 / MW/day shall be paid by the SPDs in advance prior to the commencement of the said delay period and shall be calculated based on the period of delay as estimated by the SPD. The SPD shall be required to demonstrate possession of a minimum area of 1.5 ha/MW for the awarded Project Capacity.
- c. The SPD shall submit a sworn affidavit from the authorized signatory of the SPD listing the details of the land and certifying that total land required for the Project is under clear possession of the SPD.

Selection of Solar Power Developers for Setting up of 1250 MW ISTS-Connected Solar PV Power Projects in India under Tariff-based Competitive Bidding

will not be allowed until the demonstration of land possession by the SPD in terms of Clause 16.6 (b). However, in case of delays in demonstrating land possession by the SPD on account of Government delay (including but not limited to delay in land use pattern change, and/or relaxation under respective State land ceiling Act, and/or land lease permission from State Government/Authorities) or delay caused due to a Force Majeure as per PPA, SCD shall be suitably extended.

Part commissioning of the Project shall be accepted by NTPC subject to the condition that the minimum capacity for acceptance of first and subsequent part(s) commissioning shall be 50 MW, without prejudice to the imposition of liquidated damages, in terms of the PPA on the part which is not commissioned. In case of part-commissioning of the Project, possession of land corresponding to the part capacity being commissioned, shall be required to be demonstrated by the SPD prior to declaration of commissioning of the said part capacity.

For example, a project of 300 MW may be commissioned in 2 parts: First being a part capacity of 50 MW and the remaining part capacity being 250 MW.

Similarly, part commissioning of a project of 500 MW capacity shall be done as follows: 1st part capacity=50 MW, 2nd part capacity= 300 MW or above and 3rd part capacity=150 MW. However, the SCD will not get altered due to part commissioning. Irrespective of dates of part commissioning or full commissioning, the PPA will remain in force for a period of 25 (twenty five) years from the SCD.

17.2. COMMISSIONING SCHEDULE AND LIQUIDATED DAMAGES NOT AMOUNTING TO PENALTY FOR DELAY IN COMMISSIONING

- a) The Scheduled Commissioning Date (SCD) for commissioning of the full capacity of the Project shall be the date as on 18 months from the Effective Date of the PPA (for e.g., if Effective Date of the PPA is 01.10.2023, then SCD shall be 01.04.2025).
- b) The maximum time period allowed for commissioning of the full Project Capacity with applicable liquidated damages, shall be limited to the date as on **6 months** from the SCD or the extended SCD (if applicable) (for e.g., if SCD of the Project is 07.07.2024, then the above deadline for Project commissioning shall be 07.01.2025).

- c) In case of delay in commissioning of the Project beyond the SCD until the date as per Clause 17.2.b above, as part of the liquidated damages, the total PBG amount for the Project shall be encashed on per-day-basis and proportionate to the balance capacity not commissioned. For example, in case of a Project of 240 MW capacity, if commissioning of 100 MW capacity is delayed by 18 Days beyond the SCD, then the liquidated damages shall be: $\text{PBG amount} \times (100/240) \times (18/180)$. For the purpose of calculations of the liquidated damages, 'month' shall be considered consisting of 30 Days.

In case the Commissioning of the Project is delayed beyond the date as per Clause 17.2.b, the PPA capacity shall stand reduced/ amended to the Project Capacity commissioned and the PPA for the balance capacity will stand terminated and shall be reduced from the selected Project Capacity.

17.3. Delay in commissioning on account of delay in GNA Operationalization/ Connectivity

The responsibility of obtaining GNA, if required, shall be as per the extant regulations. Further, the responsibility of obtaining connectivity shall be of the SPD prior to commissioning of the Project. Subsequent to grant of connectivity, in case there is a delay in grant of connectivity by the CTU and/or there is a delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network until SCD of the Project, and it is established that:

- a) The SPD has complied with the complete application formalities as per Clause 7.10 and as per the Detailed Procedure as issued by the CTU,
- b) The SPD has adhered to the applicable procedure in this regard as notified by the CERC/CEA, and
- c) The delay in grant of connectivity/GNA by the CTU and/or delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network, is a factor attributable to the CTU/transmission licensee and is beyond the control of the SPD;

The above shall be treated as delays beyond the control of the SPD and SCD for such Projects shall be revised as the date as on 30 Days subsequent to the readiness of the Pooling point at PSS and/or Delivery Point at GSS and power evacuation infrastructure and/or grant of connectivity. Decision on requisite extension on account of the above factor shall be taken by NTPC.

In case of delay in commissioning of Project due to reasons beyond the reasonable control of the SPD, NTPC may extend the SCD after examining the issue on a case-to- case basis.

In case of any extension in SCD beyond 30.06.2025 on account of delay in Grid Access operationalization, decision on time extension will be under the purview of MNRE, in line

with the OM issued by Ministry of Power vide No. 23/12/2016-R&R dated 30.11.2021, and subsequent amendments/clarifications thereto, read in conjunction with CERC's orders and regulations notified in this regard.

17.4. EARLY COMMISSIONING

The SPD shall be permitted for full commissioning as well as part commissioning of the Project even prior to the Scheduled Commissioning Date, subject to availability of transmission connectivity. Early part commissioning of the Project will be allowed solely at the risk and cost of the SPD and NTPC may purchase the energy from such early part commissioned Project @ 75% (seventy-five per cent) of the PPA tariff. However, in case the entire capacity is commissioned prior to SCD, NTPC may purchase the generation at PPA Tariff.

In case NTPC does not agree to purchase such energy, early part/full commissioning of the Project shall still be allowed, and the SPD will be free to sell such energy to a third party, until SCD or the date of commencement of procurement of power from the Project as notified by NTPC, whichever is earlier.

	$m + (T-m)/2$, if $S_m \geq S_E$ and T-m is even	
	$m + (T-m+1)/2$, if $S_m \geq S_E$ and T-m is odd	

Total eligible Bidders for e-Reverse Auction = Bidders from Sl. No. 1 to Sl. No. n.

For e.g. (Shortlisting of Bidders for reverse auction):

Total bid capacity of techno-commercially shortlisted bidders = $S_T = 3050$ MW

Sl. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	m	S_E	n	Shortlisted Bidders for e-RA
1	B3	L1	600	8	3	1250 MW	6*	B3
2	B5	L2	300					B5
3	B1	L3	350					B1
4	B4	L4	300					B4
5	B2	L5	300					B2
6	B6	L6	500					B6
7	B7	L7	400					
8	B8	L8	300					

* $n = 3 + (8 - 3 + 1)/2 = 6$ as per the above formula

- III. At least 7 Days prior to reverse auction, an advance intimation regarding the date and time of the reverse auction will be sent by e-mail to all the bidders whose technical bids have been opened and found to be meeting the qualification requirements. However, from this advance intimation, it shall not be construed by the bidders that they have been shortlisted for Reverse Auction. Further, at least two hours before the scheduled start time of Reverse Auction, a system generated email for invitation for Reverse Auction will be sent to all those bidders

only who have been shortlisted based on the criteria mentioned at Clause 5.3 (II) above.

- IV. Shortlisted bidders for Reverse Auction will be able to login into the e-ReverseAuction Bidding Event on <https://www.tcil-electronictender.com> portal 15 minutes before the start time of reverse auction.
- i. During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.
 - ii. The minimum decrement value for tariff shall be INR 0.01 per kWh. The Bidder can quote its revised discounted tariff which has to be at least 01 (One) Paisa less than its current tariff.
 - iii. Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
 - iv. During reverse auction, the Bidder shall not have the option of changing the total project capacity while quoting tariff during reverse auction.
 - v. In the bidder's bidding window, the following information can be viewed by the bidder:
 - a. Its tariff as the initial start price and there after last quoted tariff along with the project capacity for which the Bidder is qualified.
 - b. The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and project capacity
 - vi. The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 15 (fifteen) minutes, if a bid is received in last 15 minutes from the scheduled/extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:
 - a. **Green Zone:** This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant.
 - b. **Yellow Zone:** This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.
 - c. **Red Zone:** This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant.
 - d. **Blue Zone:** Bidders who have submitted same Tariff and their submission time is also same, will be displayed in Blue Zone. This zone consists of the Bidders who may or may not be awarded their quoted Project capacity (full or partial) if the auction is closed at that instant.

If no such change as described above is effected during the last 15 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

5.4 SELECTION OF SUCCESSFUL BIDDER(s)

- a) Subsequent to conclusion of the e-RA process, the bidders in the "Green" and "Yellow" zones as per **Clause 5.3. IV (vi)** above, will be listed in the increasing order of the tariffs discovered at the end of e-RA.

b) The bidders who fall within the range of (and including) the lowest tariff (L1 tariff) + 2% of the L1 tariff-hereinafter referred to as “the range”- will be declared as Successful Bidder(s) under the RfS, subject to the following conditions:

- i. In case the cumulative capacity shortlisted as per the range exceeds S_E (capacity eligible for award as per Clause 5.3.(II), the list of Successful Bidder(s) shall be limited by S_E .
- ii. In a borderline case, i.e., the scenario wherein more than one bidder is eligible to be declared as Successful Bidder at the highest tariff (the tariff at the end of the range), and the cumulative capacity exceeds S_E , time stamping of bidders shall be used to limit allocation of cumulative capacity up to S_E . In such cases, those bidders who are at the same tariff, but they are ranked lower than the ones which fall within the cumulative capacity limit of S_E , will not be eligible to be declared as Successful Bidder.

In other words, in every possible scenario, the total capacity to be awarded under the RfS shall be limited to S_E

iii. Time stamping- In case of a tie among two or more Bidders (i.e. their last quoted tariff being the same), they will be considered in the chronological order of their last quoted tariff during the e-RA with preference to be given to that Bidder who has quoted his last tariff during the e-RA, earlier than others.

iv. In the above case, if the time of quote also becomes exactly same among the Bidders at a tie, then the ranking among these Bidders shall be done as follows:

- Step 1: Lowest rank will be given to the Bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.
- Step 2: Ranking will be done based on draw of lots.

c) Illustration: Following example provides a possible illustration of the above methodology:

- L1 tariff discovered after e-RA: Rs. 2.50/kWh
- The range (L1+2% of L1): Rs. 2.55/kWh

Rank	Quoted Capacity (MW)	Cumulative Capacity (MW)	Time stamp	Tariff (INR/kWh)	Qualified as Successful Bidder(s)
L1	300	300	NA	2.50	L1
L2	400	700	NA	2.51	L2
L3	400	1100	16:00:01	2.55	L3
L3	300	1400	16:00:02	2.55	L3

L3	300	1700	16:00:03	2.55	---
L4	300	2000	NA	2.60	---

- d) **Note:** The allocation of cumulative project capacity shall be closed at S_E . However, in no case, shall the capacity of a single Project selected under this RfS, be less than 50 MW. In case of the last Successful Bidder, if the balance project capacity is less than the total capacity mentioned by the Bidder but greater than 50 MW, then the balance capacity shall be awarded to the Bidder, subject to the maximum cumulative capacity not exceeding S_E , being awarded under the RfS.

In case the partial capacity offered to the last Successful Bidder as per **Clause 5.4. (b)** above, is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity, and the BG against EMD submitted by such Bidder shall be returned along with those of the unsuccessful Bidders. Such refusal shall be intimated to PFCCL within 7 Days of completion of e-RA and not later than 7 Days of issuance of LOAs by PFCCL, failing which, the awarded capacity shall be deemed to be accepted by the said Bidder.

In case the partial capacity offered to the last Successful Bidder as per **Clause 5.4 (b)** above, is greater than or equal to 50% of the total quoted capacity by such Bidder, it shall be mandatory for the last Bidder to accept the partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded under the RfS not exceeding S_E . In case the last Successful Bidder refuses to accept such partial capacity offered by PFCCL, the Bank Guarantee(s) against EMD submitted by such Bidder shall be encashed by PFCCL.

5.5 ISSUANCE OF LOA

At the end of selection process, Letters of Award (LOAs) will be issued to the Successful Bidder(s) discovered as above. The LOA shall be issued for the Contracted Capacity as quoted by the respective Successful Bidder(s), or the partial capacity, as the case may be. In case of a Consortium being selected as the Successful Bidder(s), the LOA will be issued to the Lead Member of the Consortium.

PFCCL reserves the right to cancel any or all of the bids in view of higher tariff discovered after e-RA. In all cases, PFCCL's decision regarding selection of Bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders. LOA shall be placed by PFCCL on behalf of NTPC.

SPECIAL INSTRUCTIONS TO BIDDERS FOR e-TENDERING AND REVERSE AUCTION

GENERAL

The Special Instructions (for e-Tendering) supplement 'Instructions to Bidders', as given in these RfS Documents. Submission of Online Bids is mandatory for this RfS.

e-Tendering is a new methodology for conducting Public Procurement in a transparent and secured manner. Now, the Government of India has made e-Tendering mandatory. Suppliers/ Vendors will be the biggest beneficiaries of this new system of procurement. For conducting electronic tendering, *PFC Consulting Limited (PFCCL)* has adopted a secured and user-friendly e- tender system enabling bidders to Search, View, and Download tender document directly from the e- tendering portal of ElectronicTender *i.e.* <https://www.tcil-electronictender.com>. This portal is based on the world's most 'secure' and 'user friendly' software from _ElectronicTender®. A portal built using Electronic Tender's software is also referred to as Electronic Tender System® (ETS).

Benefits to Suppliers are outlined on the Home-page of the portal.

INSTRUCTIONS

Tender Bidding Methodology:

Sealed Bid System

Single Stage Two Envelope

Auction

The sealed bid system would be followed by an 'e-Reverse Auction'

Broad Outline of Activities from Bidder's Perspective:

1. Procure a Class III Digital Signing Certificate (DSC).
2. Register on Electronic Tender System® (ETS)
3. Create Marketing Authorities (MAs), Users and assign roles . It is mandatory to create at least one MA
4. View Notice Inviting Tender (NIT)
5. For this tender -- Assign Tender Search Code (TSC) to a MA
6. Download Official Copy of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. To participate in a tender, it is mandatory to procure official copy of Tender Documents for that tender.
7. Clarification to Tender Documents
 - a) Query to PFCCL (Optional)
 - b) View response to queries posted by PFCCL

8. Bid-Submission on ETS
9. Respond to PFCCL Post-TOE queries.
10. Participate in e-Reverse Auction if invited.

For participating in this tender online, the following instructions are to be read carefully. These instructions are supplemented with more detailed guidelines on the relevant screens of the ETS.

Digital Certificates

For integrity of data and authenticity/ non-repudiation of electronic records, and to be compliant with IT Act 2000, it is necessary for each user to have a Digital Certificate (DC), also referred to as Digital Signature Certificate (DSC), of Class III, issued by a Certifying Authority (CA) licensed by Controller of Certifying Authorities (CCA) [refer <http://www.cca.gov.in>].

Registration

To use the <https://www.tcil-electronictender.com>, vendors need to register on the portal. Registration of each organization is to be done by one of its senior persons who will be the main person coordinating for the e-tendering activities. In ETS Terminology, this person will be referred to as the Super User (SU) of that organization. For further details, please visit the website/ portal, and click on the 'Supplier Organization' link under 'Registration' (on the Home Page), and follow further instructions as given on the site. Pay Annual Registration Fee as applicable.

After successful submission of Registration details and payment of Annual Registration Fee, please contact ETS Help Desk (as given below), to get your registration accepted/ activated.

Important Note:

1. Interested bidders have to download official copy of the RfS & other documents after login into the e-tendering Portal of ElectronicTender. If the official copy of the documents is not downloaded from e-tendering Portal of ElectronicTender within the specified period of downloading of RfS and other documents, bidder will not be able to participate in the tender.

To minimize teething problems during the use of <https://www.tcil-electronictender.com> (including the Registration process), it is recommended that the user should peruse the instructions given under 'ETS User- Guidance Centre' located on ETS Home Page, including instructions for timely registration on y the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid- encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption on <https://www.tcil-electronictender.com> is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill Electronic Forms® for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Forms® and the corresponding Main-Bid. For transparency, the information submitted by a bidder in the Electronic Forms® is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the Electronic Forms®, the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the Electronic Forms® and the ‘Main-Bid’, the contents of the Electronic Forms® shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to PFCCL in a sealed envelope **and** through the portal before the start date and time of the Tender Opening Event (TOE) as per Clause 23 of Section III of ITB.

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal.

OTHER INSTRUCTIONS

For further instructions, the vendor should visit the home-page of the portal <https://www.tcil-electronictender.com> , and go to the **User-Guidance Center**

The help information provided through ‘ETS_User-Guidance Center’ is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of <https://www.tcil-electronictender.com>.

SEVEN CRITICAL DO’S AND DON’TS FOR BIDDERS

Specifically, for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline.
2. Register your organization well in advance of the important deadlines for your first tender viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'.

Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of Marketing Authority (MA) [i.e., a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/Bidder Organization

3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline.
4. For responding to any particular tender, the tender (i.e. its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline (There could be last minute problems due to internet timeout, breakdown, etc.)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. The bidders are required to submit correct, valid and operative Pass-Phrase to decrypt either Technical Bid Part or Financial Bid Part in a separate sealed envelope before due date and time of submission of bid. In the event, the bids are not opened with the pass-phrase submitted by bidder, PFCCL may ask for re- submission/ clarification for correct pass-phrase. If bidder fails to submit correct pass- phrase immediately as requested by PFCCL, the Tender Processing Fee and Tender Document Fee, if applicable, shall be forfeited and bid shall not be opened, and EMD shall be refunded. No request on this account shall be entertained by PFCCL.
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' the status pertaining Overall Bid-Submission is 'COMPLETE'. For the purpose of record, the bidder can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the status pertaining overall Bid-Submission' is 'COMPLETE'

NOTE: While the first three instructions mentioned above are especially relevant to first-time users of

ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.

ADDITIONAL DOs AND DON'Ts FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION

1. Get your organization's concerned executives trained for e-Reverse Auction related processes well in advance of the start of e-Reverse Auction.
2. For responding to any particular e-Reverse Auction, the e-Reverse Auction (i.e., its Reverse Auction Search Code or RASC) has to be assigned to an MA.
3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e- Reverse Auction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.
5. During an e-auction, it is recommended that a bidder submits a bid well before the scheduled time of 'Date and Time of Closure of Reverse-Auction'. Submission of a bid near the closing time of an auction may result in failure due to any of the various factors at that instant, such as – slow internet speed at the bidder's end, slow running of computer at bidder's end, nervousness of the bidder in the last few seconds, etc. This could lead to delay in submission of data from the bidder's computer to the server. Even if the delay is of a fraction of second after the scheduled closing time, it will result in failure of bid submission. Further, please note that a bid can be submitted even if the bidding-page has not been refreshed manually, or otherwise depending on the conditions of the e-auction.

Note: Successful receipt of Bid in an e-auction scenario takes place if the bid is successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding (On some ETS screens, this is also referred to as 'Date and Time of Closure of Reverse-Auction', or Forward-Auction, as the case may be). End Users shall be solely responsible for ensuring timely submission of their respective bids such that the bids are successfully received in ETS as stated above. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS. When a bid is successfully 'received and validated', it is recorded in the ETS Audit Trail Report, which is generated by ETS. In case of any uncertainty, the application audit trail generated by ETS (ETS Audit Trail Report) shall be the final record/evidence for reference regarding the 'successful bid receipt'.

Pre-requisite for participation in bidding process

1. Bidder must possess a PC/ Laptop with Windows 7 professional operating system and Internet Explorer 8 or 9 for hassle free bidding. Bidder is essentially required to affect the security settings as defined in the portal.
2. The Bidder must have a high-speed internet connectivity (preferably Broadband) with internet explorer to access Electronic Tender's e-Tender Portal for downloading the Tender document and uploading/ submitting the Bids.

3. A valid e-mail ID of the Organization/ Firm.
